

LALLEMAND PLANT CARE

SAFETY DATA SHEET

SAFETY DATA SHEET

MYC 800[®]

SECTION 1 - PRODUCT AND COMPANY IDENTIFICATION

1.1 Product identifier: Myc 800

1.2 Identified and recommended use: (BIO) FERTILIZER

1.3 Supplier details:

LALLEMAND PLANT CARE SAS
4 route de Beaupuy
31180 CASTELMAUROU
+33 (0)5 34 27 67 80
France

<http://www.lallemandplantcare.com/>

1.4 Emergency telephone: Contact your local doctor or hospital.
In the European Union, call 112.

SECTION 2 - HAZARD IDENTIFICATION

2.1 Classification of the mixture:

Product is not classified as hazardous and does not contain any substances that are classified or labelled according to Regulations (EC) 1272/2008, (EU) 453/2010, (EC) 1907/2006 (REACH), Directive 1999/45/EC, to the Globally Harmonized System of Classification and Labelling of Chemicals (GHS section 1.5.2), the Canadian Hazardous Product Act, US Occupational Safety and Health Administration (OSHA) and Controlled Product Regulation (CPR).

Contains microorganisms, which may cause sensitizing reactions.

Revision N°01

Revised by: Lallemand Plant Care Quality Assurance

SECTION 3 - COMPOSITION

Substance name	CAS-, EC or index number	REACH Registration No.	Concentration	Classification - pictograms - H- statements - category
Kaolinite	1332-58-7		66 % (p/p)	None
Diatomaceous earth	61790-53-2		18 % (p/p)	None
Perlite	93763-70-3		2% (p/p)	None
Spores Endomycorhizes Glomus Intraradices DAOM 181602	Not applicable		800 spores/g	None

The other ingredients (14%) are not listed as they have no impact on the classification.

SECTION 4 - FIRST AID MEASURES

4.1 Description of First Aid Measures:

General information:Protection of rescue workers: Wear appropriate individual protective equipment (see Section 8). Transport the affected person into the open air. Remove contaminated shoes and clothing.

Inhalation:In the event of inhalation, take into the open air. Do not allow the person to get cold. Keep the victim resting in a semi-seated position. In the absence of breathing, use artificial respiration. Consult a doctor.

Ingestion:In the event of ingestion, do not induce vomiting but rinse the mouth with water (only if the person is conscious). Consult a doctor if symptoms develop.

Contact with the skin:Rinse thoroughly in running water and soap. Remove contaminated shoes and clothing. Consult a doctor if symptoms develop.

Contact with the eyes:Rinse thoroughly in running water, with the eyelids opened for 15 minutes (protect uninjured eye). Consult a doctor if symptoms develop.

First aid facilities:Ensure that automatic eye baths and safety showers are located close to the workstations.

4.2 Most important symptoms and effects, both acute and delayed:

Eye contact:May cause irritation of the eyes (redness).

Skin contact:.....Prolonged or repeated contact with the skin may cause irritation.

Inhalation:May cause coughing (irritation) or irritate asthma. May cause sensitization.

Ingestion:.....Ingestion of the product may elicit gastrointestinal problems. May induce vomiting, headache, listlessness.

SECTION 5 - FIRE FIGHTING MEASURES

5.1 Extinguishing media:

Suitable:Water spray, foam, carbon dioxide, dry powder.

Unsuitable:None

5.2 Special hazards arising from the material:

Do not inhale explosion and combustion gases. Burning may produce heavy irritant smoke.

5.3 Advice to firefighters:

Wear a self-contained breathing apparatus (SCBA) when exposed to confined or enclosed fires as product powder could be in the air. Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Move undamaged containers from immediate hazard area if it can be done safely.

SECTION 6 - ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures:

Avoid contact with the eyes, skin and clothing. Use appropriate protective equipment (see Section 8).

6.2 Environmental precautions:

Do not allow to enter into soil/sub soil. Do not allow to enter into surface water or drains. Retain contaminated washing water and dispose it. This material is not a physical, health or environmental hazard.

6.3 Method and materials for clean up:

Small accidental spillage or leak: Avoid the formation of dust or spray. Mop up with appropriate material. Place in an appropriate container. Clean the area affected with plenty of water.

Large accidental spillage or leak: Prevent spillage into the drains, subsoil or confined areas. Contain if necessary. Mop up the product spilled with inert material (e.g. dry sand or dry earth) and place in a chemical waste container. Recycle if possible.

6.4 References to other sections:

See Section 8 for personal protective equipment and section 13 for waste disposal.

SECTION 7 - HANDLING & STORAGE

7.1 Precautions for safe handling:

Handling:Avoid contact with eyes. Use localized ventilation system. Don't use empty container before it has been cleaned. Before making transfer operations, assure that there are not any incompatible residues in the containers.

Occupational hygiene:Wash hands thoroughly after handling. Do not eat, drink or smoke while working. Store work clothing separately. See also section 4 for recommended equipment.

7.2 Conditions for safe storage, including any incompatibilities:

Place of storage:Store in dry, cool and well-ventilated place in its tightly closed original packaging, at temperature between 4°C and 20°C (40°F and 68°F) during 24 months maximum. Don't expose to negative temperature or upper than 35°C. If products get wet, molding can occur. Periodically check bags for signs of internal heating.

Incompatibilities:Do not store together with strong oxidizing agents or strong acids.

SECTION 8 - EXPOSURE CONTROLS / PERSONAL PROTECTION

8.1 Protection of lungs:.....In case of insufficient ventilation, effective dust mask. Wear a NIOSH-approved N95 particulate mask (P2 or FFP2) if local ventilation is not adequate.

8.2 Protection of skin:.....Wear suitable protective clothing.

8.3 Protection of hands: ...Wear protective gloves.

8.4 Protection of eyes:Safety glasses with side-shields.

8.5 Exposition limits:.....OS No exposure limits. The active substance is natural and generally occurring soil-borne microbe.

SECTION 9 - PHYSICAL & CHEMICAL PROPERTIES

9.1 Information on basic physical and chemical properties:

Appearance: Solid powder

Odour:no

Solubility in water:insoluble

pH: 5.4

SECTION 10 - STABILITY AND REACTIVITY

Stable under recommended conditions of storage, use and transportation.

10.1 Possibility of hazardous reactions:..None under normal processing.

10.2 Conditions to avoid:.....No specific date

10.3 Incompatible materials:.....No specific date

10.4 Hazardous decomposition products: Thermal decomposition products include carbon monoxide, carbon dioxide, hydrocarbons. In case of fire, see section 5. Materials allowed to smolder for long periods in enclosed spaces may produce amounts of carbon monoxide with reach the lower explosive limit (LEL = 12.5 % in the air).

SECTION 11 - TOXICOLOGICAL INFORMATION

11.1 Information on toxicological effects:

Acute toxicity: No known information is available

Skin corrosion/irritation: Irritation to the skin may occur.

Serious eye damage/irritation:..... Irritation to the eyes may occur.

Respiratory /Skin sensitization: Irritation to the nose or throat may occur.

Germ cell mutagenicityNo known information is available

CarcinogenicityNo known information is available

Reproductive toxicityNo known information is available

Revision N°01

Revised by: Lallemand Plant Care Quality Assurance

STOT-single exposureNo known information is available

STOT-repeated exposureNo known information is available

Aspiration hazard.....No known information is available

Other information: No further information

According to the Regulation (EC) No. 1272/2008, Myc 800 is not classified.

SECTION 12 - ECOLOGICAL INFORMATION

12.1 Toxicity:No known information is available

12.2 Persistence and degradability:No known information is available

12.3 Bioaccumulative potential:.....No known information is available

12.4 Mobility in soil:No known information is available

12.5 Results of PBT and vPvB assessment: Not considered to be a PBT and vPvB substance.

12.6 Other adverse effects: If the product has escaped into a water course, into a drainage system, or has contaminated the ground or vegetation in exceed quantities, notify the competent authorities.

SECTION 13 - DISPOSAL CONSIDERATIONS

13.1 Waste treatment methods:

Product and packaging can be disposed of in regular trash or waste. No special disposal method required. Follow all applicable local laws for recycling, bagging, and disposal of trash.

SECTION 14 - TRANSPORT INFORMATION

14.1 Product is not classified as dangerous goods according to international transportation regulations in force ADR, RID, ADN, OACI/IATA and OMI/IMDG.

Revision N°01

Revised by: Lallemand Plant Care Quality Assurance

SECTION 15 - REGULATORY INFORMATION

15.1

EU :

This product is not classified as dangerous according to the CLP Regulation (EC) No 1272/2008. The Safety Data Sheet of this non dangerous product and related Classification are in accordance with EU Regulations:

CLP Regulation (EC) 1272/2008 on classification, labelling, and packaging of substances and mixtures, amending and repealing Directives 67/548/EC and 1999/45/EC, and amending Regulation (EC) No 1907/2006.

Regulation (EU) 453/2010 amending Regulation (EC) No 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH).

Regulation (EU) 453/2010 ANNEX II: Requirements for the compilation of safety data sheets.

Regulation (EC) 1907/2006 concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH)

Directive 1999/45/EC concerning the approximation of the laws, regulations and administrative provisions of the Member States relating to the classification, packaging and labelling of dangerous preparations.

National Regulation in France :

French authorization (AMM) N°6080001.

CANADA :

WHMIS Statement: This product has not been classified in accordance with the hazard criteria of the Controlled Product Regulation (CPR) and the SOS Contains all the information required by the CPR.

USA, STATE REGULATIONS:

California Proposition 65: This product does not contain any proposition 65 chemicals.

SARA 313, section 313 of the Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA). This product does not contain any chemicals which are subject to the reporting requirements of the Act and 40 CFR Part 372.

SECTION 16 - OTHER INFORMATION

16.1 Labelling information:

Contains microorganisms, which may cause sensitizing reactions.
